

Sr. Mobile Software Engineer (m/f) - Android

Location **Berlin, Germany** Type **Full Time**

Overview

GladBills is looking for engineers and hackers who would like to work on ground breaking products and embrace new technological paradigms and architectures.

You will be working with a motivated, supportive and enthusiastic team and develop highly interactive cloud applications for web and mobile devices.

If you

- have a passion for developing great software that is maintainable and well structured*
- know how to create apps for the cloud that are API-driven and platform independent*
- have zero tolerance for things that could be optimized or handled more efficiently*

we would love to get to know you and give you more insight into GladBills and the opportunities we offer.

Responsibilities

- creating mobile apps of GladBills for Android Phones and Tablets*
- closely collaborate with the entire team in order to integrate apps with the GladBills*
- work with UX/UI designers to optimize GladBills apps for use on touch devices*
- take part in developing the future of GladBills by bringing in your personal knowledge, ideas and abilities*

Experience

- strong English or strong German and good English communication skills*
- Bachelor Degree in Computer Science OR other relevant experience*
- several years of practice in at least one object oriented programming language (Java, C++, C#, Objective-C)*

Requirements

- *ability to quickly learn and apply new ideas*
- *interest in product and user interface design*
- *experience in Android development is a plus*
- *experience in Java and the Android Development is a plus*

Compensation

- *work with highly motivated and engaged founders, and a supportive and pragmatic team*
- *Creative and professionally equipped work space with electric standing desks, large meeting spaces and much more*
- *State of the art work equipment such as Apple MacBook Pro, Cinema Display, Smartphones and more*
- *opportunity to engage with promising start up early on and to work on cutting edge products used by millions of users worldwide*
